

# Secure establishments

Key and asset management solutions

## Who we are and what we do

Traka is the leading worldwide specialist in key, equipment and asset management solutions, with over 50% of its annual turnover coming from international trade. Our systems are in use 24/7 in many sophisticated and demanding environments, from prisons, police forces and hospitals through to commercial distribution centres and rugged military applications.

Using Traka's 'silver bullet', the iFob, our intelligent solutions enable you to implement superior control.

- Automatically vend keys – no security staff are needed to issue keys manually
- Improve shift start-up time – keys can be drawn or returned in less than five seconds eliminating queuing
- Consolidate key numbers – staff draw keys from an authorised pool, no longer requiring individual key bunches.

## Intelligent asset management

Keys for secure areas and facilities

Radio handsets

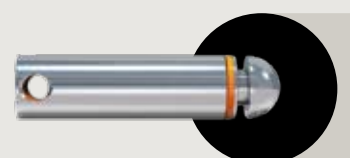

Fleet and specialist vehicles

Laptops, PDAs and handheld data terminals

Tools and specialist equipment

# Intelligent asset management for prisons and secure establishments

## Key Vending

- Controlled access to authorised keys for staff and officers
- Automatically vend keys from a secure software controlled cabinet
- Individual staff recognition ensures unique access permissions
- Segregate operational and non-ops keys
- Reduce staffing costs – security staff no longer needed to issue keys manually
- Audit and account for every key set 24/7 365 days per year
- Improve shift start up – keys can be drawn and returned in less than five seconds, eliminating the need to queue for manual issue
- Consolidate key numbers by up to 40% – staff draw keys from an authorised pool no longer requiring individual key bunches
- Automatically alert and notify should a key not be returned on time
- Integrate with your access control system to ensure staff can't leave site without first returning their keys

## Radio Vending

- Many of the benefits of key vending are also applicable to radio vending
- Automatically vend radios from a secure software controlled cabinet
- Radios are available 24/7, to authorised staff only
- Handsets are securely stored and accounted for, when not in use
- Staff are individually accountable, resulting in fewer losses and less damage
- RFID tagging ensures every radio is uniquely identified and managed
- Integrated battery charging ensures handsets are always ready for use

## Fleet Management

- Prevent unauthorised staff from driving fleet and specialist vehicles
- Always know exactly who was driving each vehicle and when
- Report on mileage, fuel, hours used and even where the vehicle is parked
- Enforce alcohol testing for drivers before their vehicle keys are released
- Vehicle defects reported by the user automatically generate alerts to the service team and can lock-out access to vehicles with faults

## Asset Management

- Ideal for laptops, data terminals, scanners, cameras and specialist equipment
- Manage, control and account for the use of shared portable equipment
- At all times know who has, or who previously used, portable pool equipment
- Deposit important paperwork, making it readily available 24/7 to selected staff
- Use our software to manage, control and report on usage, with confidence

## Tool Management

- Control who has access to tool cabinets and equipment
- Audit tool and equipment usage, always know who has used them and when
- Manage the use of shared tools, removing the need for duplication and improving utilisation
- Create a controlled environment, so staff are accountable for tools used
- Set recalibration and service intervals, so tools are properly maintained
