Traka LT Key Cabinet
Specifications

traka
ASSA ABLOY

Powered by KEYper technology

Traka LT powered by KEYper technology brings convenience and accountability to those needing access to your property's physical key inventory. The LT cabinet keeps keys secure when not in use, and provides fast, controlled access to staff via unique mobile credentials in the KEYper GO mobile app.

KEYper GO streamlines key management for residential properties by allowing staff to easily access unit keys for tours, inspections or maintenance. With KEYper GO, users can quickly track which staff members have checked out specific keys, as well as seamlessly transfer ownership of assets in the field with real-time accountability.

LT cabinet features

- 480 key positions in a single cabinet
- Swing frame design for increased key capacity in a smaller footprint
- Powder-coated, 16-gauge steel construction
- Wall or cabinet stand mounting options
- Keyed manual override lock
- Authorized access only via secure mobile credentials in KEYper GO

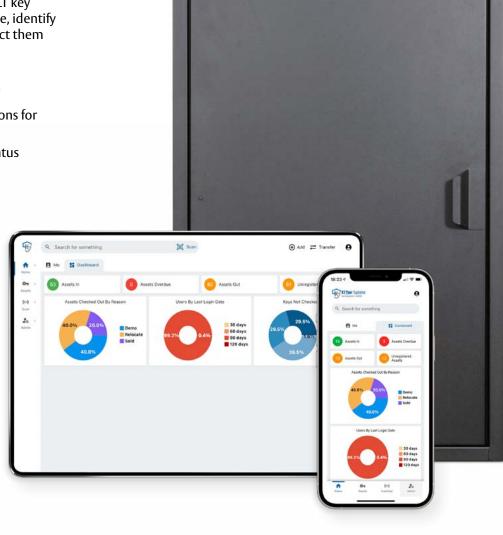

Smart Tag

- Reusable and durable plastic key tags remain unlabeled for resident safety
- Each Smart Tag has a unique QR code for fast identification in KEYper GO using device's camera
- Embedded NFC tag enables users to tap to identify keys on devices equipped with near-field readers
- Users scan each asset upon checkout and return for accurate activity audits

The KEYper GO mobile app provides all the features needed for administrators and users to access, monitor, and track your property's keys. Each authorized user has a unique mobile credential for securely accessing the LT key cabinet. Quickly see if a key is available, identify who has keys checked out, and contact them with just a few taps.

KEYper GO application features

- Receive immediate push notifications for important system activity
- Check current system and asset status
- See transaction history
- Manage users and assets
- Manage access permissions
- Securely transfer ownership of keys between users when away from the cabinet
- Create key reservations, and more
